ABOUT US

Crystalise delivers bankable results by using our proven asset improvement processes across the energy and resources industries in which we operate. We do this by harnessing our collective solutions and industry leading practitioners to ensure best in class maintenance practices are planned, embedded within your maintenance management system, executed in the field, with performance analysed and improvements made.

Our practices have delivered bankable operational improvements, significantly enhancing an asset's availability and reliability, whilst reducing operational risks.

Crystalise's unique track record in creating value and delivering results for our clients is the reason we were awarded a top 10 asset management solutions company in the APAC region.

Turn Emissions into Trees

OUR TRACK RECORD *Comments from our customers*

STRATEGIC PLANS

"... extremely satisfied, they have thought out of the box and enabled us to be different, by pursuing synergies / opportunities that deliver bottom line results."

OWNERSHIP TRANSFERS

"... without their expertise, we would not have passed the regulatory hurdles ..."

ASSET INTEGRITY

"They enabled us to reduce our RBI inspections by 70% by combining our inspections records with their extensive knowledge of materials and mechanics."

ISO 55000

"...one of the very few companies that have ISO 55001 certified CAMA assessor that assess asset management systems and develop meaningful roadmaps for step change in asset performance."

PERFORMANCE STANDARDS

"... they have provided us with quality professionals with the knowledge and experience to hit the ground running for the task at hand."

MAINTENANCE OPTIMISATIONS

"... Their people have actually designed, implemented and realised 30% maintenance savings ... not many organisations have that expertise."

ASSET SCORECARDS

"... they gave us focus on what really matters. Before we couldn't measure it, so we couldn't improve it. Now we are very focused."

OUR CUSTOMERS *These are the types of customers we have been working for:*
